

7th Intercongress symposium of the AOSCE

18 – 24 March 2014

National Taiwan Ocean University, Keelung, Taiwan

On behalf of the Local Organising Committee I am pleased to invite you to join us for the 7th Asia and Oceania Society for Comparative Endocrinology (AOSCE) intercongress. The AOSCE intercongress will be held at National Taiwan Ocean University (NTOU), Keelung, Taiwan from 18 to 24 March 2014.

Our AOSCE meetings provide fantastic opportunities not only to exchange and share research information, discoveries and advancements, but also provide us the chance to network with our colleagues and forge new friendships.

The theme for this congress is "Overcoming Challenges in The 21st Century". This congress will provide a great opportunity for endocrinologists to share their experiences and to discuss the various challenges that are being faced in this field. It is also a good opportunity to see how various collaborations can make significant contributions to our science field.

The 7th AOSCE Intercongress being held in Taiwan will provide an excellent chance to not only participate in the congress but also to enjoy the cultures that is the essence of Taiwan. You will be able to tour the city of Keelung and Taipei as well as visit the historical town of Taiwan amongst other interesting things.

We anticipate a great turnout and look forward to seeing you here in Taiwan in March 2014.

Organizer in Taiwan

Professor Ching-Fong CHANG
President of National Taiwan Ocean University
Chair of the Local Organizing Committee

National Taiwan Ocean University
2, Pei-Ning Road, Keelung 20224, Taiwan
